## **DETAILED ACTION**

### ***Species***

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

- Species 1: claims 18, 29.
- Species 2: claims 19, 30.
- Species 3: claims 20, 31.
- Species 4: claims 21, 32.
- Species 5: claims 22, 33.

### ***Election/Restriction***

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, in the instant application, species 18-22 have claim 12 as the generic claim while species 29-33 have claim 23 as the generic claim.

A telephone conversation was held with Atty. Florin Corie on Thursday, October 14, 2004 to request an oral election of a single species for examination as set forth in the above species restriction requirement. However, an election decision was not made.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 2141

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
